

PROFILE SUMMARY

Final year Information Technology student with a strong interest in software development, database design, and computer networking. Passionate about building reliable, user-focused solutions while continuously expanding technical knowledge and problem-solving skills. Developed projects using C#, Java, SQL, HTML, CSS, JavaScript, and Cisco networking technologies. Seeking a graduate software development opportunity to contribute, learn, and grow within a collaborative development team.

EDUCATION

North West University

Bsc in Information Technology

2024 – Present

Bsc in Business Analytics – completed selected modules before pivoting to BSc in Information Technology

2020 – 2023

TECHNICAL SKILLS

Languages:

C#, Java, Python

Web Development:

HTML5, CSS3, Responsive Web Design

Databases:

SQL, Microsoft SQL Server, Oracle SQL, Database Design

Networking:

Cisco Packet Tracer, VLAN Configuration, DHCP, NAT, IP Addressing

Development Tools:

Visual Studio, Visual Studio Code, Git, GitHub

REFERENCES

- Available on request

PROJECTS

● Esgard Point of Sale (POS) System

Technologies: C#, Windows Forms, SQL Server

- Developed a desktop Point of Sale application using C# and Windows Forms.
- Designed and implemented a SQL Server database to manage inventory, purchases and sales transactions.
- Created SQL queries and reports to support inventory management and sales analysis
- Applies object-oriented programming principles to build a user-friendly desktop application.

● Business Network Design

Technologies: Cisco Packet Tracer, VLANs, DHCP, NAT

- Designed and implemented a secure business network using Cisco Packet Tracer
- Configured VLANs, DHCP, NAT, wireless networking and IP addressing to simulate a real world business environment.
- Implemented network segmentation to improve security and communication between departments.
- Verified network connectivity and functionality through simulation and testing.

● Personal Portfolio Website

Technologies: HTML, CSS, JavaScript, Git, GitHub

- Designed and developed a fully responsive personal portfolio website from scratch
- Implemented interactive features including dark mode, smooth scrolling and project showcases.
- Applied modern HTML, CSS and JavaScript practices to create a clean and professional user experience.
- Published the project using Git and GitHub for version control and portfolio hosting.

LEADERSHIP & EXTRACURRICULAR ACTIVITIES

Bothaville High School -2019

- Deputy Head Boy – Appointed to support school leadership and represent the student body.
- Debate Council Member – Developed communication, public speaking and critical thinking skills.
- Rugby Team Captain – Led the school rugby team, demonstrating leadership, teamwork and accountability.
- First XV Rugby – Represented the school's first team in rugby for two consecutive years.
